

# PHARMACEUTICAL AND BIOTECH

**Safe and Reliable  
Turnkey Environmental Services  
for Nearly 40 Years**

*Tradebe has provided safe and reliable Turnkey Environmental Solutions to the Pharmaceutical and Biotech industries for nearly 40 years.*

**Tradebe's Labpack/Depack Facility, East Chicago, IN**

## PHARMA AND BIOTECH SERVICES

Tradebe provides Turnkey Environmental Solutions that include a staff of highly-skilled lab chemists that are experienced and knowledgeable in handling virtually all chemical types that accumulate as a natural part of work, production or research in the Pharma and Biotech industries.

From Lab Packing, On-site services, Professional Cleaning, Sustainable Waste Recycling, Hazardous Waste Management and Disposal as well as Emergency Response Services.

“Lab Pack” chemical identification and hazardous waste management is a job for knowledgeable professionals. Hundreds or even thousands of different chemicals can often be found in just one laboratory.

With our clients' best interests in mind, Tradebe is focused on the protection of people and the environment while providing the most sustainable waste recycling options available today.

***For more information, or to schedule a waste management consultation, contact us now.***

## WHY CHOOSE TRADEBE?

*Our clients tell us that we help them reach their environmental waste management goals in three key ways:*

**Health, Safety and Compliance -** maintaining Health, Safety and Environmental Compliance at all times

**Sustainability -** offering Waste Recycling and Minimization Options to Achieve Sustainability Goals

**Turnkey Solutions -** providing a full range of Environmental Services - Tradebe's own facility and fleet network
